Rubric Preamble

This details how your assignment is graded.

Legend:

Convert your overall grade or your mark for a section in the rubric to a percentage and find out where you land in the table below).

A range (90% to 100%)	"excellent"	• clearly ***exceeds*** expectations (or ***perfect*** performance, where possible) • clearly demonstrates comprehensive understanding of subject matter • at most very minor problems
B range (75% to 89%)	"good"	• clearly meets expectations • demonstrates generally complete understanding of subject matter, with perhaps some minor gaps • perhaps some minor problems
C range (65% to 74%)	"satisfactory"	• meets basic expectations • demonstrates basic understanding of subject matter, perhaps with some confusion or gaps • room for substantial improvement
D range (50% to 64%)	"marginal"	• does not fully meet basic expectations • demonstrates only partial understanding of subject matter • generally insufficient preparation for subsequent material or courses; remedial work is needed
F range (0% to 49%)	"failure"	• does not meet basic expectations • failure to demonstrate basic understanding of subject matter • insufficient preparation for subsequent material or courses; immediate and very substantial remedial work is needed

	E.g. Out of 15	
A range	13-15	← normally ~90% (and up to 100% when appropriate)
B range	11-12	← normally ~75%
C range	9-10	← normally ~65%
D range	8	← normally ~50%
F range	0-7	← normally close to zero, or zero for no attempt

Basic Project Structure Checklist (NO MARKS)

❏ Submitted BlueJ project folder organized as requested with proper name

❏ All code compiles without errors or warnings (deductions for code with compile errors)
